Water Conservation Plans

Entities required to submit a WCP:

- ≥ 3300 connections
- Financial assistance with TWDB $> \$500,000$
- Certain entities with water rights through TCEQ

Majority of updates due May 1, 2024!

TAP into Conservation

A Technical Assistance Program for Water Conservation Plans

We can help with

- guidance on gathering technical data for conservation plans,
- a better understanding of conservation plan requirements and rules,
- best practices for conservation strategies, and
- methods for improving your conservation plan development!

TAP into Conservation

A Technical Assistance Program for Water Conservation Plans

Mission:

Provide more direct technical, one-on-one assistance to small water suppliers, utility personnel, and city staff to strengthen their required water conservation plans and provide guidance on developing, improving, and tracking water conservation programs.

TAP into Conservation

A Technical Assistance Program for Water Conservation Plans

Case Study:

- Identified existing activities pertinent to their Water Conservation Plan (they were doing it already!)
- Discussed system operations and ways they should and can improve data collection and analysis
- Reviewed importance of annual reporting and data consistency

Thank you!
